Art Unit: 1761

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 5, 8 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 5 and 8 are unclear in reciting "comprised...aqueous mixture of" (lines 4-5), which can be corrected by changing this unclear language to "including a composition comprising". Also, in claim 8, line 2 "comprising" should be added after "cooking". Claim 8 is also misdescriptive in reciting "sample" (lines 3, 4 and last line) since "sample" does not appear in the claims 9-11 and 13. Claim 8 is further indefinite in not reciting to what "thereof" (lines 9 and 12) refers, which can be corrected by changing "thereof" to "of the raw food product". Claim 10 is indefinite in failing to recite proper Markush language, i.e. "the group consisting of" after "from". Corrections are required without new matter.

3. Claim 13 is objected to because of the following informalities: In claim 13, "a" should be changed to "the". Appropriate correction is required.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 5-11, 13 and 15-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over The Cooking of India (page 43) in view of Powell, Brotsky and British patent 18,345 as set forth in paragraph no. 6, Paper No. 092804.

6. Applicant's arguments filed June 20, 2006 and the accompanying 132 declaration have been fully considered but they are not persuasive. The declaration is still deficient in failing to state the components and amounts thereof in the "Clean A Meal" product discussed in said declaration. Only the components and amounts of the "Cooking of India" product are given. However, one of these amounts is incorrect since the primary reference uses 1 teaspoon of turmeric rather than the 1 tablespoon as stated by declarant on page 1 of said declaration.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
